

## *Chemical-free cleaning workshop*

The new kitchen is now being cleaned without harsh chemicals, using high quality ENJO micro-fibres & cold water. This is a much more sustainable, healthy & effective way to keep the kitchen clean and our children safe. It certainly ties in well with the SAKG program of reducing waste and recycling.

**A training workshop on how to use ENJO will be held on Tuesday 10 September at 7:30pm in the new kitchen at Stanmore Public School.**

The session will be run by Sally Steele – a local Inner West ENJO business owner. Ordering is possible but not mandatory\*. Those volunteering in the kitchen are strongly encouraged to attend so you can see first hand what to use & where. Anyone is welcome to come & take a look.

Please RSVP by Mon 9 Sept to [sakg@pandc.stanmorepublicschool.info](mailto:sakg@pandc.stanmorepublicschool.info) so we have an idea of numbers for refreshments.

\*purchasing on the night can benefit the school in the form of extra products at discounted rates.

To contact Sally direct, call 0411 858 277 or email: [sallyenjo@gmail.com](mailto:sallyenjo@gmail.com)
